Current Working Groups and Contacts

Please note that the jurisdictions listed in each working PSAP group have been flexible, there may be additions to the groups since the printing of this document. What is important to note is that there are various groups of PSAPs working together around the state to accomplish the transition to wireless compliance. Each group has been very accommodating with regard to new jurisdictions joining the group. If your county, city, town, etc. is interested in joining a group or in starting a new one, please contact the respective POC or this office for assistance.
